Unarine Dzivhani

Bachelor of Science in Computer Science | University of Venda | 2025
Thohoyandou | (+27) 798616203 | unarined3@gmail.com

Professional Summary

Detail-oriented Computer Science graduate with a strong foundation in software development, system analysis, and quality assurance principles. Experienced in translating business and functional requirements into clear, testable scenarios and executing manual functional, regression, and integration testing to ensure system reliability and quality. Demonstrated ability to collaborate effectively with developers, business analysts, and stakeholders to identify defects, clarify ambiguous requirements, and deliver high-quality outputs within agreed timelines. Highly analytical, patient, and eager to continuously learn and grow in fast-paced IT environments.

Education

University of Venda
BSc Computer Science *2023–2025*

Experience

AI Fundamentals & Data Structures **University of Venda**
Tutor *2025*
Tutored undergraduate students in Artificial Intelligence fundamentals and Data Structures & Algorithms, improving student comprehension and academic performance

Projects

Ride-Request App **Flutter + Firebase + Google Maps**
Full-Stack Ride Booking App, Cross-platform development *June–Sept 2025*
Developed comprehensive ride-booking app with real-time GPS tracking and user authentication

Student Marketplace App **Flutter + Firebase**
Student E-commerce Platform, Mobile app with web interface *Jan–June 2025*
Built a cross-platform buying and selling platform enabling students to trade products, featuring secure transactions and user ratings

Face Extraction Model OpenCV + TensorFlow + Matplotlib *Machine Learning Developer, Google Colab Nov–Dec 2024*
Developed and trained a computer vision model to automatically detect and extract faces from full-body images with high precision

Pixel Platformer Game **GDScript + Godot Engine**

Game Developer, 2D game development *Sept–Dec 2024*

Created a Mario-inspired platformer featuring physics-based gameplay, sound effects, custom pixel art, and interactive game mechanics

Skills

Programming Languages: Dart, Python, GDScript, Java, C++, PHP

Mobile & Web Development: Flutter, Firebase, Cross-platform Development

Machine Learning & AI: TensorFlow, OpenCV, Computer Vision, Data Structures & Algorithms

Game Development: Godot Engine, 2D Design, Physics Implementation

Tools & Technologies: Google Maps API, Git, Microsoft Office, Windows Support, VS code

Soft Skills: Analytical thinking, Attention to detail, Problem solving, Communication skills, Time management, Team collaboration, Adaptability, Patience & resilience
